Mention was made Monday of the damage to the city bridge over Limestone Creek caused by an electric car jumping the track and colliding with two of the iron uprights last Saturday. One of the uprights was broken and the other badly bent.

Mayor Stalcup made a sketch showing the injured section and forwarded it to the builders of the bridge, the King Bridge Company of Cleveland, with instructions to wire him if it was deemed necessary to stop travel. Last evening a telegram was received directing that all heavy travel be suspended until the company could send men here to repair the damage.

All street car and wagon travel over the bridge has accordingly been suspended. The street cars transfer at the bridge.

Workmen from Cleveland are expected here to-day to make the repairs.
